MISSION FOCUSED. INTELLIGENCE DRIVEN.

GDR delivers integrated expertise where intelligence, security, technology, and mission execution converge—providing trusted professionals and innovative solutions that reduce risk, strengthen resilience, and ensure mission success

Core Capabilities:

- **Supply Chain Risk Management (SCRM) & Vendor Threat Mitigation (VTM)** – Identifying, assessing, and mitigating supply chain and vendor risks to strengthen mission assurance and operational resilience.
- **Human Intelligence (HUMINT) & Counterintelligence (CI)** – Supporting collection, analysis, investigations, threat detection, and mission protection.
- **Security & Insider Threat (InT)** – Providing comprehensive personnel, industrial, physical, and insider threat solutions to safeguard people, information, facilities, and critical programs.
- **Information Technology (IT)** – Designing, implementing, operating, and sustaining secure, reliable technology solutions that support mission critical operations.
- **Program Management & Acquisition Support** – Delivering disciplined program, project, and acquisition management to ensure accountability, compliance, and successful execution across the program lifecycle.

Why GDR:

- Service-Disabled Veteran Owned Small Business (SDVOSB)
- Leadership with decades of military, Intelligence Community, and federal government experience
- Agile, responsive, and low-overhead organization capable of rapidly supporting evolving mission requirements
